CONFEDERATION OF RISK REDUCTION PROFESSIONAL

THE UINSPIRE-INDIA

INTRODUCTION

India is a multi hazard-prone country where the role of Youth and Young Professionals (YYP) is crucial.

Youth and young Professionals are the torchbearers for advancing the role of Science and Technology in Disaster Risk Management

The starting off professional and academic courses focusing on disaster and climate change to further science and technology integration into risk reduction initiatives make it mandatory for YYP to be active members in policy and action.

Based on multi-city consultation meetings with YYPs, the Confederation of Risk Reduction Professionals (CRRP) was formed with an aim to provide a platform to the YYPs to promote practical application of Science, Engineering, Technology and Innovation (SETI) for disaster risk reduction for making India disaster resilient.

Connect and empower Youth and Young disaster risk reduction professionals to make India disaster resilient.

To promote Science Engineering Technology and Innovation in disaster risk management among the youth and young professionals and encourage them to take disaster management as a career.

Enable the networking of youth and young professionals to create disaster resilient and sustainable society

OBJECTIVES

01

To provide a platform for conducting research and its appropriate implementation.

02

To bring DM professionals on a common platform and reduce the gap between research and implementation.

03

Guide GenNext and provide appropriate opportunities.

04

To support evidence based policy.

05

Support the implementation of Sendai Framework for Disaster Risk Reduction at the National and State level.

06

To promote disaster research and engage in post disaster relief and response activities.

07

To support various governments and other stakeholders in policy-making and DRR related activities.

08

To train human resources, accredited courses, and innovate new products for DM and CC adaptation.

ORGANOGRAM OF CRRP

Working Committee

8 member elected working committee will run the day to day functions of CRRP.

+

Board of Mentors

Each mentor will lead one or more Thematic Group depending on their expertise.

+

Thematic Group

- Policy & Advocacy
- Architecture, Urban & Heritage
- Risk Communication
- Science &Technology
- CCA & Mitigation
- 5 R's

Understanding Risk Field Lab

Bhola Saha actively participated in the month long open space conference "Understanding Risk (UR) Field Lab : Chiang Mai Urban Flooding" in Chiang Mai, Thailand , 1- 30 June 2019.

UNSPIDER 4 DRR

Dr. Repaul Kanji presented his work at "United Nations International Conference on Space-based Technology for Disaster Risk Reduction- 'A Policy Perspective' " in Beijing, China, 11-12 Sept 2019.

SETI4DRR Toolkit

CRRP INDIA

Innovate, Create, Implement

Each participant should submit the following:

(I) An innovative and easy-to-implement family Disaster Risk Management Plan (DRMP) as a powerpoint presentation. Plan should cater to all key phases of DRM relevant to household level. Avoid theories of various aspect.

(II) A maximum two minutes video of you and your family members practically demonstrating implementation of any aspect of your family DRMP. Please shoot a good quality video strictly in landscape orientation

Suggestive ideas for video making are as below. Feel free to choose from it or otherwise:

1. Hazards hunting in house
2. Non-structural mitigation measures- remove, relocate and refix (anchor)
3. Making family DRM kit
4. Evacuation to safe assembly point
5. Teaching family members any aspect of disaster risk management
6. Demonstrating working of safety equipment like fire extinguishers, etc. to family members

Deadline: November 1, 2019
